Re: Proposed Surety
Bingham Canyon Mine
Salt Lake and Tooele Counties

ACT-035-002

Dear Chuck:

During the last meeting of the Board of Oil, Gas, and Mining the proposal which you discussed with me was presented informally to the Board. The expenditure of \$25,000 per year on reclamation was received with a feeling of less than acceptance. The general consensus was that Kennecott should meet with the Board informally and describe the surety proposal, especially its relation to the alternatives which have been outlined in the Mining and Reclamation Plan.

The next meeting of the Board has been tentatively set up for November 17th at 10:00 A.M. Please let us know if you can attend this meeting. Meanwhile, if there are any questions on the type of information asked for please give me a call.

Very truly yours,

Ronald W. Daniels
Coordinator of Mined
Land Development
